Larissa Magalhães Pereira

Date of birth: 22/10/2003 | Place of birth: Belo Horizonte, Brazil | Nationality: Brazilian | Phone: (+55) 31995621716 (Mobile)

Education & Training

Bachelor in Computer Science | University of São Paulo (USP) | 15/03/2022 - 31/12/2025 | Ribeirão Preto, Brazil

The Bachelor's degree in Computer Science at FFCLRP-USP trains professionals with solid theoretical and practical knowledge. The curriculum provides a strong logical and mathematical foundation, along with comprehensive training in computing fundamentals, methods, and technologies. It also covers professional ethics, entrepreneurship, teamwork, and the ethical development, implementation, and management of computational systems.

Level in EQF: 6

Work experience

Junior Software Developer | Hipcom ERP | 01/02/2026 - Current | São Paulo (Remote), Brazil

- Developed an internal UI framework and component library in Flutter to standardize frontend development and reduce rework across multiple apps, building from basic CRUD forms and datagrids to complex master-detail interfaces.
- Build a web-based production control system for retail clients using React, Go, and MySQL, managing workflows for recipes, preparation, packaging, stock transfers, and inventory control.
- Maintain and expand existing mobile apps (Android/iOS) in Flutter/Go and web systems in React/Go for a retail ERP system, resolving support tickets, fixing bugs, and implementing new features.
- Manage CI/CD pipelines and application deployments across various environments utilizing CircleCI, Codemagic, Firebase, Nomad, Apple App Store, and Google Play Store.
- Integrate AI-powered tools into the daily workflow to accelerate code generation, assist with debugging and refactoring, and optimize overall development efficiency.

Software Development Intern | Hipcom ERP | 14/10/2024 - 31/01/2026 | São Paulo (Remote), Brazil

- Developed full-stack web and mobile applications using Flutter, Go and MySQL.
- Developed and optimized new APIs and endpoints, in addition to migrating and refactoring backend systems from Java to Go.
- Contributed to the development of core modules for a retail ERP system, including inventory management, order processing, fiscal modules, dynamic pricing tables and user control.
- Participated in developing an internal support panel to manage client integrations, APIs and cloud environments.

Retail Assistant - Work and Travel Program | Vail Resorts | 15/12/2023 - 15/03/2024 | Stowe, United States

- Participated in a cultural and professional exchange program in Stowe, Vermont, USA.
- Developed advanced English communication skills, along with customer relationship abilities and cultural adaptability.

Marketing Team Member (University Junior Enterprise) | Voll Jr | 01/01/2023 - 31/12/2023 | Ribeirão Preto, Brazil

- Created and managed digital content for the company's official Instagram and LinkedIn profiles.
- Analyzed social media engagement metrics and statistics to optimize marketing reach.
- Implemented inbound marketing strategies focusing on the passive prospecting of new clients.
